POCKET-SIZE GIANT. COMPACT ON THE OUTSIDE. SPACIOUS ON THE INSIDE. CITROËN NEMO'S INTELLIGENT DESIGN MAKES REAL BUSINESS SENSE.

CITROËN NEMO IS A MASSIVE WORKHORSE – WITH AN ANT-LIKE FOOTPRINT. ITS COMPACT DIMENSIONS MEAN THAT IT CAN SQUEEZE INTO THE MOST AWKWARD PARKING SPACES, MANOEUVRE THROUGH TIGHT URBAN STREETS AND NIP IN AND OUT OF MULTI-STOREY CAR PARKS WITH EASE. AND WHEN IT COMES TO INTERIOR SPACE, CITROËN NEMO'S PROPORTIONS ARE IMPRESSIVELY GENEROUS.

> COMPACT LOAD HAULER

With a load length of 1.52 metres and an amazing loadspace capacity of 2.5m³, Citroën Nemo is also capable of carrying a whopping 590kg payload. And with a low load sill it can easily swallow all kinds of heavy cargo and secure loads with robust, built-in anchorage points.

Please note: Modular folding bulkhead shown is available as an accessory.

➤ A LOT OF PRACTICALITY

When it comes to loading and unloading in busy urban spaces, Citroën Nemo really makes life easy. The asymmetrical rear doors can open to 90 degrees, or – for even more access – 180 degrees. Single nearside and optional twin sliding side doors give you access from other angles, so you can load and unload twice as fast, or even when there's no room behind you. What's more, with remote control central locking available as part of the Plus Pack, you can keep the load compartment locked while you hop in and out, or lock the cabin while you unload.

➤ A LITTLE MODULARITY

The EXTENSO® passenger seat folds fully flat giving you an extra 97cm load length to an exceptional 2.49m and increases load volume to a massive 2.8m³. The modular folding bulkhead (available as a dealer-fit accessory) folds 90° towards the driver's seat, allowing you to take full advantage of this extra load space while ensuring the driver continues to be protected.

BUSINESS CLASS. CITROËN NEMO IS MUCH MORE THAN A VAN. WITH ADJUSTABLE SEATS, HANDY STORAGE COMPARTMENTS AND USEFUL FEATURES, IT'S A MOBILE EXTENSION OF YOUR OFFICE.

WHEN YOU'RE OUT AND ABOUT, CITROËN NEMO IS A COMFORTABLE PLACE TO WORK. ON LX AND ENTERPRISE MODELS THE DRIVER'S SEAT CAN BE ADJUSTED FOR HEIGHT AND LUMBAR SUPPORT AND ALSO COMES EQUIPPED WITH AN ARMREST. EVEN THE HEIGHT AND REACH STEERING WHEEL CAN BE CHANGED TO ACHIEVE THE OPTIMAL DRIVING POSITION.

› BIG CONNECTIONS

Depending on the Citroën Nemo model you choose, the front fascia puts a host of innovative technology within reach – like Connecting Box – Bluetooth® handsfree with USB socket, standard on Enterprise, optional on LX models, so you can make deals as you travel. Your phone conversations are broadcast through the MP3 compatible audio system, and there's a microphone integrated in the cabin roof, leaving you free to talk and focus on driving. There's even a 12 volt socket on the centre console for your mobile phone charger, so for professionals who spend more time behind the wheel than in the office, it really is the perfect workmate.

› LITTLE CREATURE COMFORTS

Every element of the cabin has been designed with business travel in mind, from the high gear stick to the coffee cup holders and a nifty compartment on top of the dashboard to hold smaller items like your wallet and keys. You can also have a flip-up A5 clipboard – perfect for keeping paperwork at hand and a glove box that's large enough to stow away your most valuable items – even a laptop.

FULL COMMITMENT. WHEN IT COMES TO PROTECTION, CITROËN NEMO LOOKS AFTER YOU, YOUR CARGO AND THE PLANET WITH EQUAL ENTHUSIASM.

CITROËN NEMO HAS AN IMPRESSIVE CV – BOASTING A HOST OF STANDARD AND OPTIONAL SAFETY FEATURES, AS WELL AS CITROËN'S RENOWNED CREDENTIALS FOR PRODUCING 'GREENER' VEHICLES.

> LITTLE IMPACT

As any urban business driver knows, small nicks and scrapes can make a huge dent in the bottom line – so Citroën Nemo uses some clever engineering to reduce the financial impact. The front headlamps are high up to avoid contact, whilst the front bumper is reinforced by a steel safety bar to protect the engine from light knocks. To protect the rear there's also the parking sensors standard on Enterprise, optional on LX models, which activate automatically when in reverse.

> GREAT STRENGTH

With car-like roadholding, Anti-lock Braking System and Electronic Stability Control as standard, Citroën Nemo is designed to keep you out of danger in all conditions. A robust outer shell, deep bumpers and up to two airbags keep you and your passenger protected from every angle. For added safety, Citroën Nemo's on board computer also has a programmable over speed warning system, which alerts you with an alarm and on-screen message if you go over your pre-set speed.

> THE BIG PICTURE

Citroën are widely acclaimed for taking their environmental responsibilities seriously. And with its compact size and choice of two low emission, fuel-efficient engines, Citroën Nemo raises the bar even further. The HDi 75 diesel engine is equipped with a 5-speed manual gearbox.

OPTIONS

➤ BULKHEADS

A steel half-height bulkhead with upper mesh grille (B) can be fitted as an option on all Citroën Nemo vans. This separates the load compartment from the cabin and provides substantial protection for the driver and passenger, even when carrying a variety of small items.

Other options include a full steel bulkhead, which forms a complete and secure barrier between the load space and the cabin area. Coupled with the unglazed rear doors, the full steel bulkhead provides excellent security for the cargo, hiding it from prying eyes.

For Citroën Nemo vans fitted with optional glazed rear doors with heated rear window and wash-wipe, a full steel bulkhead with inset window (C) is an option. This bulkhead offers similar load-stopping capability to the full steel bulkhead, with a window to optimise rear visibility.

For the easy transportation of long and large loads in full safety, the modular folding bulkhead (D) (available as a dealer-fit accessory) folds 90° towards the driver's seat (E). With the EXTENSO® passenger seat folded fully flat, you can then take full advantage of this extra 97cm load length (2.49m in total) and a massive 2.8m³ load volume, while ensuring the driver always remains protected.

GREEN EFFICIENCY. CITROËN HAS BEEN PIONEERING CLEANER, MORE FUEL-EFFICIENT MOTORING, SUCH AS THE COMMON RAIL HDi ENGINES NOW FITTED IN ALL NEW CITROËN DIESELS, LONG BEFORE ALL THE HYPE...

CITROËN HAS ALWAYS BEEN AT THE FOREFRONT OF GREENER TECHNOLOGY AND THE CITROËN NEMO MAINTAINS THAT TRADITION. IT'S WHY WE ARE FOUR TIME WINNERS OF THE GREEN FLEET LCV MANUFACTURER OF THE YEAR, INCLUDING THEIR MOST RECENT, 2013 AWARD. TODAY, WE HAVE ONE OF THE UK'S WIDEST RANGES OF LOW EMISSION VEHICLES. WE ALSO PRODUCE ONE OF THE UK'S MOST ECONOMICAL LIGHT COMMERCIAL VEHICLES, THE CITROËN NEMO VAN.

We've been equipping more of our vehicles with more environmentally friendly breakthroughs, such as Stop & Start. Stop & Start puts the engine into idle mode as you decelerate and stops altogether as you come to a halt. The moment you take your foot off the brake, it restarts silently and without vibration. The results are a dramatic reduction in both fuel consumption and CO₂ emissions, combined with responsive performance wherever you go.

GLOSSARY

› HIGH-PRESSURE DIRECT INJECTION DIESEL ENGINE

Our HDi diesel engines operate with the fuel under extremely high pressure, enabling microscopically precise injection control. With this level of management it's possible to inject at different times during the same engine stroke allowing total control over the combustion process. This has allowed our engineers to reduce carbon monoxide emissions by 40%, unburned hydrocarbons by 50% and engine particulates by 60%. Fuel consumption is 20% lower than a prechamber diesel engine, resulting in an equivalent reduction in CO₂ emissions and thanks to the torque available at low engine speed it could be argued that driveability is now better than in petrol engined cars.

› ELECTRONIC STABILITY CONTROL

This is computer-controlled traction assistance and is provided primarily through the braking systems. The ESC's control unit constantly compares where the driver intends going (through the position of the steering wheel) with where the vehicle is actually going and, if necessary, makes speed corrections to each wheel individually through braking or engine torque to keep the vehicle 'in line'.

› GUIDE-ME-HOME HEADLIGHTS

Parking in the evening or in a poorly lit car park is made easier with Citroën's 'guide-me-home' system. On locking the vehicle the headlights stay on for a few seconds to allow you time to get to your front door or garage exit with sufficient illumination to navigate your way safely.

› ON-BOARD TRIP COMPUTER

Citroën Nemo's multi-function trip computer provides you with information at your fingertips. At the touch of a button you can view a range of data like fuel consumption, average speed and mileage possible at your current fuel level. Citroën Nemo also allows you to set a speed limit with a warning tone sounding when it is exceeded.

› EXTENSO®

The EXTENSO® folding passenger seat enables the load length of Citroën Nemo to be increased to 2491mm, a gain of more than 950mm. This enables you to configure your passenger seat in three positions: Seat – for the transportation of a passenger. Table – to accommodate your various documents. Fully folded – for the transportation of long objects.
